Performance and Portability

The **Dukane ImagePro™ 8910** is a super versatile projector that can be used in classrooms, training rooms, conference rooms, and halls or churches. It is also light enough to be easily transported or could be mounted in a variety of configurations. This projector has a wide set of features that will satisfy virtually every user.

Native XGA resolution and saturated color LCD technology provide a superb image. At only 10 lbs. and modest size, it is a projector that can provide images from computers with resolutions of VGA, SVGA, XGA, or SXGA. It has the standard RGB computer connections, plus the new DVI connection interface. Multiple video formats can be accommodated, including: Composite, S-video, and component video input connections. The projector is HDTV theater ready with the capability to display NTSC, PAL, SECAM, 480i/p, 720pi, 1080i video signals.

Other features include: vertical and horizontal keystone correction, 36 dB (whisper mode), 16:9 mode, and a remote controller with laser pointer and mouse function.

Another new feature, "Custom Image", is a user programmable Start-up screen that allows the end user to place a message that is seen during warm-up. This can identify the users organization or present any other desired graphic.

One-year Peace of Mind loaner program. For the first year of the warranty period Dukane will send you a loaner LCD projector within 24 hours after determining that your projector requires warranty service. This program gives you the peace of mind of knowing that you will always have a projector for an important presentation. This projector is backed by **Dukane's FIVE YEAR** limited warranty.
