Proxima DP9260 Projector

When high brightness, premium video performance and maximum installation flexibility are essential, Proxima's DP9260 delivers. This 2200 ANSI lumen projector is the perfect solution for large conference rooms, big training rooms, or even small auditoriums. Whether it's permanently installed, or moved from place to place, the DP9260 is the choice of professionals worldwide for high-profile, large-room presentations.

Our projector has a wide angel lens installed to give you a larger image from a shorter projection distance. It comes with VGA and video cables, and a power cord. 90-day warranty.

Our price \$995 (compare at \$2,699)
